COMPANY PROFILE

Nitin Fire Protection Industries Ltd (NFPI) is an end to end solution provider for fire protection, safety and security systems with the capabilities in designing, engineering, commissioning and maintenance. The company's assembling lines are situated at TTC Industrial Area, Vashi, Navi Mumbai; and Vishakhapatnam. The company deals in various types of fire fighting accessories and systems at the above facilities.

FUTURE OUTLOOK

Topline to grow at CAGR of 26% between FY14 and FY16E...

- NFPI's topline has seen robust CAGR of 32% for the past three years. **Its operating revenues grew by 44% during FY14 on the back of faster order execution.**
- Turnkey projects, sale of products, AMC and sale of cylinders - through its wholly owned subsidiary Eurotech Cylinders Pvt Ltd - contributed 67%, 29%, 2%, and 1% respectively, to the topline.
- Geographically, India contributed 45% to the total revenue followed by UAE at 55%.
- We expect the revenues of the company to grow with a CAGR of 26% between FY14 and FY16E. The growth will be fuelled by:

- **Revival of Indian economy**, with the stable Government in place, resulting into improvement in industrial activities.
- **World Expo 2020 in Dubai:** In November 2013, the United Arab Emirates won the right to host the World Expo in Dubai in 2020.
- In anticipation of Expo 2020 construction is booming in UAE and the once slowed tourism trade has increased dramatically. Airport traffic has seen heavy increase and hotel occupancy rate has crossed over 85%.
- There is an intense demand for quality residential and commercial properties as government incentives including benefits such as free zones and a 0% tax rate draw companies from around the world to establish operations in Dubai.
- This boosts the demand for fire and safety products which augers well for the Company.
- As mentioned earlier UAE alone contributed 55% to the consolidated revenues of the company. The Expo is expected to provide further boost to fire protection projects in UAE. NFPI earns about 80% of the revenues from UAE through EPC projects.

- The Company has the current order book size of about ₹ 8.3 bn. India contributes about ₹ 3.8 bn and rest is from UAE. Again, 65% of the orders comprise of Turnkey projects, 30% is products and rest is AMC.

Margins expected to remain stable ...

- EBIDTA Margin of the company has stabilized at 11%, though the company has not been able to maintain its PAT margins. PAT margins declined by 220 bps to 6.5% during FY14. Depreciation has increased by 124% due to the adoption of Accounting Standard 7 (AS-7).
- The company has to import FM200 and NOVEC 1230 gasses from USA based Dupont and 3M, who are the only manufacturers of these gasses. Thus, depreciation of Indian rupee against USD has impacted the margins of the company.
- With improvement in Indian economy and additional demand from UAE, we expect the EBIDTA margins and PAT margins to remain stable at the current levels of 11% and 6.5%. Orders from Middle East enjoy better margins than domestic orders.

VALUATION

At CMP of ₹ 64, the stock is trading at a P/E of 15.2, and 11.6x for FY15E and FY16E respectively. We have valued NFPI on P/E of 19x on EPS of FY16E. **We recommend BUY rating on the stock with a target price of ₹91/- (42% upside) in 18 months.**
